**Backend Development:** Node.js, MongoDB, Express.js

**Web Design:** Responsive Web Design, UI/UX

**Programming Languages:** Python, Java

**Version Control:** Git, GitHub

**Languages:** English, Hindi

## PROJECTS

---

### Portfolio Website

Designed and implemented my personal portfolio website showcasing my skills, projects, and achievements. The website is built using React.js, Tailwind CSS and hosted on Vercel. It provides a comprehensive overview of my professional journey and serves as a hub for my online presence.

### Shopping Cart

Developed a user-friendly e-commerce website using React, Tailwind CSS, and Redux. The project aims to provide a seamless shopping experience for users, allowing them to browse products, add items to their cart, and proceed through a smooth checkout process. The integration of Redux ensures efficient state management, providing a consistent and reliable user interface.

### Random Gif Generator

Built a dynamic web application using React and Tailwind CSS that enables users to explore and enjoy a wide variety of GIFs. The Random Gif Generator offers the option to generate random GIFs for a surprise element or select specific categories for a more curated experience. The integration with the Giphy API enhances the project's functionality, providing users with a diverse and entertaining GIF collection.

### GitHub Profile Hunter

Crafted a GitHub Profile Hunter project using HTML, CSS, and JavaScript. This project allows users to search for GitHub profiles and view detailed information, repositories, and contributions of other GitHub users. The intuitive and user-friendly interface enhances the overall experience of exploring and discovering GitHub profiles.

## EDUCATION

---

### B.Tech. in Computer Engineering

*Thakur College Of Engineering and Technology University, Borivali*

CGPA: 8.96

## ACTIVITIES

---

### MULTICON-W 2022 (Research paper)

Participated in a National level Research Paper Writing Competition with my fellow team-mates on the topic FACE-ID Technology.

### Contests and Problem Solving

Actively attending contests and solving problems on LeetCode, CodeChef, GeeksforGeeks.
